

## Western National Safety DVD's

Check out Policy

Western National has developed a library of DVDs to supplement your safety training. We do not suggest that the video alone constitutes the total training on any subject. The link at the bottom of the page contains a listing of the current DVDs with a short description of it's contents. We will continue to build our library to meet your needs.

### [Checkout Policy](#)

All training DVDs are available to our customers for a period of 7 business days at no charge. An extension of this period may be granted based on the additional requests of our customers. You will be billed for the cost of the DVD should you fail to return the video within this time frame or to request an extension. If an extension is denied, the DVD(s) are to be returned immediately. You may check out two DVDs at any one time.

### [Ordering a DVD](#)

You may order a DVD(s) by filling out the form at the bottom of the Resource Materials page.

### [Shipping and Return Policy](#)

Western will pay the cost of shipping the DVD (s) to you. You are responsible to pay the return shipping cost. All DVDs must be returned to Western using a service with a traceable format.
